

**The partridge usually waddles  
around just 1 square kilometre.  
The arctic tern flies 70,000 kms a year.  
Our corporate banking app  
is designed for the latter.**

The arctic tern is sleek, fast, and powerful. As you'd expect from  
a bird that flies from pole to pole twice a year.

A bit like senior management of today. Always on the move.

And yet, up to date with their financial affairs - right up to the  
current moment. Chances are they have the Kotak Corporate Banking App.

With exclusive curated financial information at their fingertips  
and expert advice on tap. And a clutch of features

critical to high flying executives - the facility to give authorisations,  
make transfers, and invest - without giving their  
aerodynamic wings a break. We owe this to our valuable customers.

After all, one good tern deserves another.

**They say that to be a lion, you have to train with the lions.  
Well, you're in luck.**

Kotak is proud to present Chasing Growth 2018, a rare opportunity for inhabitants of the corporate jungle to learn from the leaders. So, brush your mane and make tracks to BKC. The masterclass is about to begin.

**Give an infinite number  
of monkeys typewriters,  
and they will eventually  
type the complete works of  
William Shakespeare. Eventually.**

In the world of corporate finance, timing is everything. Because it's not just the bus you miss, it's the rocket that can take you to another orbit. Little wonder then that the most discerning clients choose us as their partners.

When one of India's largest automotive companies decided to restructure their family shareholding, they needed a partner with expertise in debt funding, equity structuring, escrow mechanisms, and a proven track record of time-bound execution. They could think of only one partner they could trust implicitly for this assignment. So they called us.

At Kotak, we have accumulated a wealth of invaluable expertise through three decades of experience. We've built a team with the acumen to address any requirement of any client. Swiftly, efficiently, accurately. A bit like how Shakespeare wrote his plays.

**They say you can't teach  
an old dog new tricks.  
Guilty as charged.**

At Kotak, we've been winning awards for as long as we can remember. In the last five years alone, our corporate bank has won over 25 of them. It's a trick we can't seem to unlearn. This year, Asiamoney gave us 6. Seemingly, just for doing our jobs.

- Best Domestic Bank, India
- Best Corporate & Investment Bank, India
- Best Bank, India (Cash Management Poll)
- Best High Yield Syndicated Loan
- Best Local Brokerage, India (Brokers Poll)
- Best for Overall Country Research, India (Brokers Poll)
